

PRESS RELEASE

Economics Olympiad: School rounds had ended

19.12.2019

- The school rounds ended on 13/12/2019
- 396 schools participated this year
- From 1 to 5 students will advance to the regional rounds

The school rounds had taken place from 2/12 to 13/12/2019 at high schools themselves. 396 schools participated this year from the whole country, which is third of high schools in the Czech Republic. It is 59 more, than the year before, which shows us the increasing popularity of Economics Olympiad among teachers and high school students.

The Economics Olympiad had started the school rounds for the fourth time in history. The school rounds tested the knowledge of macro and microeconomy, financial literacy, history of economic thinking, financial economy, international economy, national economy or the current state of the economy.

Today, 19/12/2019, you can find the results on our website. 1107 students are going to participate in the regional rounds, which will take place from 27/1/2020 to 14/2/2020. The regional rounds will be organized with the help of regional offices and universities and they will take place in almost all the 14 regions in the Czech Republic. 50 students will then be able to join the final round in Česká národní banka in June 2020.

Beside Czech Republic, we must mention other countries, where the Economics Olympiad will be organized too. The school rounds in Slovakia had already come to an end and --schools participated. In Hungary, we can expect the school rounds to start around the beginning of the next year.

About Economics Olympiad

Economics Olympiad is the biggest competition in economy and finances for high school students in Czech Republic and Slovakia. Hungary had joined for the first time this year. The goal of this unique project is to increase the number of students which have knowledge of economy and finances and to search for talented economists.

Almost --- thousand students had participated in the fourth round of Economics Olympiad, that is --- schools which equals a --- of all high schools in Czech Republic.

The Economics Olympiad is organized and professionally guaranteed by Institut ekonomického vzdělávání (INEV) from 2016.
